

SAQIB REHMAN

React Native Developer | Fronted Developer

saqib.rehman.10256@gmail.com | +92-349-5185389 | [GitHub](#) | [LinkedIn](#) | Narowal, Punjab, Pakistan

PROFESSIONAL SUMMARY

Frontend Web developer with 2 months of professional frontend experience at Elevvo Pathways. Proven team leader managing 3-person development team on LiveWell property marketplace project—responsible for task delegation, deadline management, and team coordination. Built and shipped 5+ projects spanning mobile development, web applications, and API integration. Skilled in React Native, JavaScript, and Git version control. I am motivated to enhance my skills in software development and gain hands-on experience in creating efficient and user-friendly web applications. Driven to work across the full stack — from idea to deployment. Seeking internship opportunities to expand technical depth and contribute to production applications. Graduating July 2027.

TECHNICAL SKILLS

Frontend Development	Tools & Other Skills
<ul style="list-style-type: none">• React Native• React.js, JavaScript (ES6+)• HTML5, CSS3, Responsive Design• API Integration	<ul style="list-style-type: none">• Git & GitHub• Firebase• SQL• C++• VS Code, Android Studio• Team Leadership & Coordination• Adobe Photoshop

EDUCATION

Bachelor of Science in Computer Science (BS-CS)

University of Narowal | Narowal, Punjab, Pakistan | Graduating July 2027

This program wasn't just about memorizing concepts - I actively learned through courses on Programming languages, Database management systems and Software engineering principles. This knowledge base serves as the core for my development skills, particularly in areas like Application Programming, Systems Design and Development and Database Management.

PROFESSIONAL EXPERIENCE

Frontend Web Development Intern | Elevvo Pathways

October 2025 – December 2025

- Built responsive landing pages using HTML5, CSS3, and JavaScript
- Developed UI components including collapsible sidebar with smooth animations
- Tested components across different browsers and devices for compatibility

FEATURED PROJECTS

LiveWell – Property Marketplace App | React Native, JavaScript, API Integration

In Development | Team Lead (3 developers) | github.com/Saqib4746/Livewell

Building property marketplace mobile app connecting buyers and sellers in real time.

MY ROLE: Managing team of 3 developers; delegating tasks based on individual strengths and project requirements. Tracking project timeline and ensuring all milestones are met on schedule. Coordinating communication between team members and resolving blockers. Contributing as lead developer on React Native components and API integration

The Goal:

- Building property marketplace mobile app connecting buyers and sellers
- Developed React Native components for property listings, search functionality, and user interface
- Integrated APIs for property data and user authentication; implemented responsive design across iOS and Android

Personal Portfolio Website | JavaScript, HTML5, CSS3

Completed | [Click to View](#)

- Designed and developed a responsive, multi-page personal portfolio to showcase technical projects, professional experience, and UI/UX design skills.
- Implemented custom styling using CSS3 and HTML5 to ensure a seamless cross-platform user experience across mobile and desktop devices.
- Managed full-cycle deployment using **GitHub** for version control and **Vercel** for continuous integration and hosting.
- Configured and optimized custom domain management via **Hostinger**, including DNS records and SSL certification for secure browsing.

Responsive Weather App | JavaScript, HTML5, CSS3, Weather API

Completed | [GitHub](#)

- Built weather application displaying real-time weather data and 5-day forecast
- Integrated weather API and implemented geolocation functionality
- Designed responsive layout using CSS Grid and Flexbox; tested across multiple browsers

Binance Trading App Clone | React Native, API Integration

Completed

- Built mobile screen clone of Binance trading application using React Native
- Integrated real-time market data APIs and implemented dynamic data updates
- Gained hands-on experience with API consumption and component-based architecture

Stuff ToDo – Task Management App | JavaScript, HTML5, CSS3

Completed | [GitHub](#)

- Created task management application with add, edit, and delete functionality
- Implemented data persistence using browser Local Storage; built live task counter and progress bar
- Demonstrated DOM manipulation and vanilla JavaScript skills

TaskFlow – Task Management Blog Page | HTML5, CSS3, JavaScript

Completed | [GitHub](#)

- Built landing page for TaskFlow app with pricing and feature information
- Implemented interactive elements and subscription pricing display using DOM manipulation
- Focused on UI/UX design principles and user-friendly interface
