SUMMARY

I am a passionate **React Native (Fresher)** with hands-on experience in HTML, CSS and JavaScript, now moving to React Native, and UI development. Intermediate foundation in Object-Oriented Programming (OOP) and Data Structures & Algorithms (DSA) through four semesters of Computer Science education. Passionate about creating responsive, user-friendly web and mobile interfaces and eager to learn, grow, and contribute in a collaborative development environment.

EDUCATION

UNIVERSITY OF NAROWAL (Narowal)

Bachelor of Science in Computer Science (BS-CS)

- Continue (5th Semester) [Session 2023-2027]

SKILLS

- HTML, CSS, JAVASCRIPT
- React Native
- Adobe Photoshop
- C++
- SQL
- MS Office

Experience

Frontend Web Development Intern at Elevvo Pathways

- Two Month Internship [October 2025 – December 2025]

PROJECTS

1. Responsive Weather App

I developed a **Responsive Weather App** using *React Native* with real-time *API* integration. The application provides current weather updates and a 5-day forecast while

maintaining a responsive design that works seamlessly across devices. During this project, I focused on writing clean, structured code and strengthening my problem-solving skills.

2. Binance (Trading App) Clone – React Native

Built a Screen clone of Binance App in React Native which help me in gaining knowledge about API integration and different components of react.

3. PropLink (Poperty Dealing App – Connecting Sellers with buyers) – React Native

Currently Working on a fully functional Property Dealing App in React Native in which user can view, sort, search, upload, buy and sell properties in contact with each other.

4. Stuff ToDo – ToDo Web Application

Built a task management app using HTML, CSS, and JavaScript, featuring add, edit, and delete functionality, a live task counter, and a progress bar to track completion. Strengthened expertise in DOM manipulation, front-end development, and UI/UX design principles**.**
